

# SECRET SATAN

## A party game of devilish gift-giving!

Secret Satan is a party game where each round a player must choose which gift they want - would you like a new car, or a nice watch? What if it was Hitler's car? Or a watch the tweets out your darkest secrets?

Players give gift cards, then try to sabotage the other player's gifts with truly terrible cards.

- > A unique take on judge-based party card games.
- > Sabotaging the other player's gifts adds a nice level of strategy not found in other games in the genre.
- > Ridiculous gift-giving fun for 3-9 players.
