

# SAVAGE ROAD

## Furious road battles across a scorched earth!

Savage Road is a miniature battle board game of high-speed highway mayhem. Players control a group of hopped-up battle cars as they fight for the lead position while attacking their enemies.

The game uses an innovative relative movement system that represents the road underneath the cards whizzing by as the cars jockey for position. Deadly obstacles randomly appear on the horizon, forcing the drivers to careen around them. All of this while the players are doing their best to blast enemy cars from the highway!

- > Lots of rubber-burning, dice-chucking action
- > An activation deck that keeps both players in the game while allowing for strategic back-and-forth combat
- > Random obstacles keeps the game dynamic
- > Plays well as either a single boxed board game or an expandable miniatures game
